

# Nour Wael

## Front End Developer

nour.w.dev@gmail.com | +201095521118 | Cairo, Egypt | Portfolio | LinkedIn | Github

### PROFESSIONAL EXPERIENCE

**Quickr**, Front End Developer

Oct 2022 – Mar 2023

- Translated Figma designs to visually appealing and functional user interfaces using React JS.
- Successfully managed the project from inception to delivery, creating a user-friendly interface with good user experience for our product startup.
- Developed and executed project plans, timelines, and schedules, resulting in timely delivery of the application.
- Coordinated with the development team to ensure that the application was built according to specifications, delivering a fully functional product on schedule.
- Improved the overall performance of the application by 20% through implementing optimized code, improving user interface design, and ensuring the responsiveness of the application across multiple devices and platforms.
- Developed a user-friendly profile page, a responsive landing page and a login and registration page.

### EDUCATION

**Bachelor's degree in Computer Science, Information Technology**, Mansoura University

Sep 2020 – Jul 2024

- Developed strong foundational knowledge in programming, Data Structures and Algorithms, OOP and problem solving using C# and Python.
- Completed comprehensive training in the software engineering life cycle and agile methodologies, demonstrating a strong understanding of these concepts and methodologies.
